PROFESSIONAL SUMMARY

Entry-level Software Engineer with 1 year of hands-on experience in full stack Java development, including expertise in Java, Spring Boot, REST APIs, and front-end technologies like React JS. Proficient in building and testing scalable web applications, collaborating in Agile environments, and leveraging cloud platforms such as AWS. Completed internships in AI and cybersecurity, enhancing problem-solving and risk assessment skills. Holds a B.Tech in Computer Science and certifications in Python and web development.

INTERNSHIPS & TRAINING

Full Stack Java Development

Mar 2025 – Mar 2026

JSpiders • Hyderabad

- Gained hands-on experience in core java, advanced java, Spring Boot, JDBC, Servlets, REST APIs, and SQL, building and testing full stack web applications.
- Participated in code reviews and Agile sprint activities to ensure high-quality standards and best practices.
- Developed responsive and reusable React.js components using JavaScript, HTML5, and CSS3.

Cybersecurity Intern(Virtual)

Sep 2023 – Nov 2023

Palo Alto Networks

- Conducted risk assessments on information systems to identify vulnerabilities and enhance security posture.
- Assisted in monitoring network security systems for vulnerabilities.
- Assisted in analyzing security alerts and identifying potential indicators of compromise.

EDUCATION

Biju patnaik university of technology

2021 – 2025

Computer Science and Engineering | B.Tech

GPA: 79%

SKILLS

Java, Spring Boot, REST APIs, Microservices, JDBC, Hibernate, HTML5, CSS3, JavaScript, React JS, MySQL, DBMS, Docker, Kubernetes (Basics), Git / Version Control, CI/CD, Agile / Scrum, Python,Object-Oriented Programming, Data Structures, Problem Solving, AWS

LANGUAGES KNOWN

English | Hindi | Telugu | Odia

Projects

Present

Job Portal & Recruitment System

Java | Spring Boot | Spring Security |JWT | Hibernate/JPA | React.js | MySQL | RESTAPIs

- Developed a full-stack web-based recruitment platform connecting job seekers and recruiters through a centralized job-search and application management system.
- Built RESTful APIs using Spring Boot for user authentication, job posting, job searching, applications, candidate profiles, and recruiter management.
- Implemented JWT-based authentication and role-based authorization for Candidate, Recruiter, and Admin users using Spring Security.
- Developed responsive React.js interfaces with reusable components for job search, job details, candidate profiles, recruiter dashboards, and application tracking.
- Integrated Hibernate/JPA with MySQL to manage users, companies, jobs, applications, skills, and application status.
- Implemented job search, filtering, sorting, pagination, and category-based browsing to improve the job discovery experience.
- Developed recruiter functionality to create, update, delete, and manage job postings and review candidate applications.
- Implemented candidate functionality to create profiles, upload resumes, apply for jobs, save jobs, and track application status.
- Added form validation, centralized exception handling, API response handling, and input validation to improve application reliability.
- Used Git/GitHub and Maven for source-code management and project dependency/build management.
